DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.
2. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.
3. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.
 - I. Group I, claims 1-5, drawn to an apparatus for the registration of a user, classified in class 709, subclass 223.
 - II. Group II, claims 6-10, drawn to an apparatus for remotely acquiring data from the registration device and content furnishing server, classified in class 709, subclass 217.
 - III. Group III, claims 11-15, drawn to an apparatus for allocating the location of a furnishing device associated with user attributes, classified in class 709, subclass 226.

IV. Group IV, claims 16-18, drawn to an apparatus for requesting for the transmission of a key, classified in class 713, subclass 168.

4. Inventions I, II, III and IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as acquiring data specifying the location of a registration device; invention III has separate utility such as allocating the location of a furnishing device associated with attributes of a user; invention IV has separate utility requesting for the transmission of a key; these are patentable distinct features of invention I. See MPEP § 806.05(d).

5. Because these inventions are distinct for the reasons given above and search for Groups II, III and IV are not required for Group I, restriction for examination purposes as indicated is proper.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48 (b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR

Art Unit: 2154

1.48 (b) and by the fee required under 37 CFR 1.17 (i).

8. A shortened statutory period for reply to this Election/Restrictions action is set to expire ONE MONTH from the mailing date of this action.
